BSU 2012 – 2017	**Specialist's degree: Interpreter.** Belarusian State University (Minsk), philology and linguistics faculty.

Employment

Codex Software Dec 2017 – Dec 2021	As Project Manager: managed 2 teams of 4-8 people, on-site and remotely. As UX/UI designer: delivered mock-ups for 5 projects. As Business Analyst: extracted and analysed requirements and created some documentation of business and user requirements.
Axamit, Avanta Feb 2017 – Dec 2017	During the last year of university and some time after it, I worked as an HR Generalist. My duties were: searching candidates, conducting interviews, hiring, performing follow up processes and recruiting analysis for CEO or HR-Director.

Experience

PROJECTS & TIME LINE   DESCRIPTION

Shift Partner Apr 2019 – Dec 2021 & **SP COVID** Apr 2020 – Dec 2021	As Project Manager, Business Analyst, and UX designer, I was performing a vast scope of tasks, main of which are: daily projects status updates, information support and transparency maintenance for developers and customers, requirements elicitation and analysis, visual mock-ups creation for mobile and web apps. **Teams:** 2 teams of 4-8 people on site and remotely. **Client's domain sphere:** recruitment systems and systems for vaccination for UK's NHS. **Tools:** GitHub, Gitlab, Asana, Figma, Whimsical, Miro, G Suite, Company's time-tracker.
ContentCo (under full NDA) Sep 2019 – Aug 2020	Spent a month in London on customer's side performing elicitation and analysis of requirements and creating project's documentation. After that managed the development of a web app on-site. **Team:** 6 people on-site. **Client's domain sphere:** printing and publishing. **Tools:** Gitlab, Figma, Whimsical, G Suite.
Internal HR system Aug 2019 – Nov 2019	Created UX/UI and documentation for MVP, then managed the development of the company's internal web app. **Team:** 6-9 devs on-site. **Tools:** Gitlab, Figma, Whimsical, G Suite.
Contiago Jun 2018 – May 2019	Worked as Business Analyst and UX designer (Carried out all UX/UI design tasks being the only designer in the company). Formulated tasks for the dev team, created and maintained API docs for external devs in English and German. **Team:** 5-6 devs. on-site. **Client's domain sphere:** printing and publishing. **Tools:** Redmine, Figma, Draw.io, G Suite.
Other small projects 2018 – 2019	Managed the development of small mobile and web apps and MVPs. **Team:** 2-3 devs. on-site. **Client's domain sphere:** printing and publishing, catering business.
